The AM-20 Universal speaker mount is the most comprehensive mount on the market today. Designed with home theaters in mind, it offers the most options and features of any mount on the market. The AM-20 can be mounted directly to an single electrical box found in pre wired home theater rooms or it can mount directly to the wall or ceiling like traditional speaker mounts. The AM-20 is compatible with all standard mounting point styles including Keyhole, single, or dual threaded inserts. Incorporating a ball joint system for superior speaker adjustments, the AM-20 offers a 90° tilt and 360° swivel/rotation allowing an endless range of angles for aiming and fine tuning the sound of the speakers. Constructed of steel and aluminum provides a maximum weight handling of 12 lbs and long lasting durability. Available in black, white or silver to match any speaker or decor. Sold as a single unit to mount one speaker.
